KRM LOTO VINYL MOLDED COATED HASP - SMALL - JAW DIA - 25 MM

- Manufacture of – Hardened metal steel with highly visible vinyl molded grip used for maintenance and prevention of power devices, available with 6 holes designed to provide protection on various installed device to meet OSHAS Lockout / Tagout Standard, 29 CFR & 1910.147 & 1910.269
- **Material** – Hardened metal steel with Vinyl molded coated on grip.
- KRM LOTO Vinyl molded coated Hasp is used to lock the device in OFF position OR permanent ON position accepts to six locks for group Isolation with di-energized insulated grip. Available in two different sizes small and premier.
- **Dimension** – Jaw diameter 25 mm for small hasp
- **Height** – 113 mm
- **Weight** – 90 gm
- **Holes** – 6
- **Color** – Red Or any color make as per the required quantity

Notes:

- Lock & Tag should be used with all loto products
- For group locking on particular energy hasp should be used.
- Group lockout box should be used for group lockout tagout.
- Scissor Cable or Round cable lockout can be used to lock multiple hazardous energies instead putting individual locks & tags.
- Every equipment/machine should have provision for energy isolation
- Placards for the isolation (types of energies) of machine/equipment should be hanged/pasted near respective machine/equipment
