KRM LOTO – ADJUSTABLE – UNIVERSAL BUTTERFLY VALVE LOCKOUT

- Butterfly valve lockout is used to lock hydraulic, pneumatic and chemical energies efficiently. Made of dielectric material and doesn't effected by any chemical, low in cost with high performance.
- Material – Poly Propylene
- KRM LOTO ADJUSTABLE – Universal Butterfly Valve Lockout is used to block the valve lever with trigger. Body of lockout is divided in two parts, the butterfly valve lockout is a simple, effective way to secure your butterfly valves to prevent unauthorized operation working with low and High temperature variation – 45°C to 200°C.
- Recommended to use with cable Lockout device for stronger strength and lesser possibilities for accidents.
- Size Applicable – Suitable for 8 mm to 45 mm valves
- Color – Red Or any color make as per the required quantity

KRM LOTO – PULL HANDLE BUTTERFLY VALVES

- Efficiently block pull handle butterfly valves A great fit – exclusive, anti-pivot lockout device that fits a variety of pull handle butterfly valve sizes ☑ Easy to use – a convenient, one-piece design that stays together whether in use or in storage ☑ Multi-industry solution – effective in environments where hygiene is critical, including food and beverage, water utilities, chemical and pharmaceutical ☑ Increase maintenance safety.
- Get a safe solution that fits best and stays in place – the Pull-handle Butterfly Valve Lockout. It's simple, fold-over design effectively locks pull handles in any desired position. Fits pull-handles up to 18 cm (7") long. And, it holds up to 4 padlocks for added safety. No matter what industry you're in, this versatile, one-piece lockout device bolsters your safety lockout solution. And that's a welcome addition to any lockout program.
- **Size-** Length 218mm, Height 54mm

KRM LOTO – MULTIPURPOSE VALVE LOCKOUT DEVICE

- Multi Function valve lockout is designed to lockout almost all type of valves for variable sizes and handle dimensions & different lengths. Valves can also be locked in any position for non lock-out uses.
- The lock body is made of engineering plastic PC. Toothed carbon steel sheet and stainless steel screws.
- With self-contained tightening screw, easy to lock by yourself without tools.
- **KKRM-K-ULD-RPB Strip Compressor Block With self-contained** tightening screw, easy to lock by yourself without tools. 192mm (height) x 94mm (width) x 32mm (thickness) (Not include Screw rod length) Applicable locking range: 31mm-100mm.
- **KKRM-ULD-SPB Circular Compressor Block With self-contained** tightening screw, easy to lock by yourself without tools. 192mm (height) x 94mm (width) x 32mm (thickness) (Not include Screw rod length) Applicable locking range: 31mm-100mm.

Notes:

- Lock & Tag should be used with all loto products.
- For group locking on particular energy hasp should be used.
- Group lockout box should be used for group lockout tagout.
- Scissor Cable or Round cable lockout can be used to lock multiple hazardous energies instead putting individual locks & tags.
